Mavenir is pioneering a new category of convergence by interconnecting any network and any device. No company is offering this type of solution. Service provider customers see the benefits for consumers who demand next-generation services. They trust us to serve as an R&D arm and work with equipment provider partners.

**Secret to success.**

Mavenir's solutions increase revenue for service providers by helping them offer the communications services that consumers' demand. This technology can be implemented in ¼ of the time it takes to build

a new network, at a fraction of the cost. Mavenir's leadership has more 50+ years combined experience working with service providers globally. These relationships, combined with this

pioneering technology, are creating sales successes.

"We have their best interests in mind when we are creating solutions to their challenges and moving communications services forward." **Pardeep Kohli**, President and CEO
