

# SACHIN KARKALA

---

## EVP & General Manager, IMS & RAN

Sachin Karkala serves as EVP and General Manager for IMS & RAN at Mavenir. In this role, Sachin leads strategy, product execution, customer success, and technology innovation across 4G/5G RAN, access network and NTN solutions. With more than 18 years at Mavenir, Sachin has held progressive leadership positions in product and engineering, driving cloud-native and AI transformations and delivering advanced network solutions for global telecom operators.

Sachin is recognized for building high-performance global R&D organizations, pioneering large-scale deployments of cloud-native RAN solutions, and spearheading industry-first innovations in IMS/VoLTE, Wi-Fi calling, and Voice Over NB-IoT in NTN Mode. Sachin's leadership has been instrumental in stabilizing delivery, accelerating performance, and aligning technology objectives with long-term business goals.

Sachin holds a Master of Science in Embedded Systems from Coventry University, UK, and a Bachelor of Engineering in Electrical & Electronics from UVCE, Bangalore University, India.
