

SANDEEP SINGH

SVP & General Manager, Business Solutions

Sandeep Singh is Senior Vice President and General Manager for Mavenir's Business Solutions. He leads the innovation and global rollout of Mavenir's integrated product portfolio for enterprise and consumer domains. In addition he heads the Business Unit for Business & Operational Support Systems product portfolio.

With over two decades in the telecommunications industry, Sandeep brings deep expertise across network and IT domains, combining technology vision with strategic product management. He has driven business transformation initiatives, developed disruptive business models, and optimized processes for operators during major technology shifts. His focus on leveraging data-driven insights from customer and network revenue management solutions enables innovative go-to-market strategies for enterprise and consumer mobility.

Sandeep's leadership spans product management, market analysis, and technology consulting, with a proven track record in monetization solutions, transactional intelligence from 5G networks, and advanced analytics for IoT and mobility services.
